SUMMARY

Computer Science Engineering student with a strong foundation in software engineering, data structures, and algorithms. Skilled in developing web applications using the MERN stack, cloud computing platforms, and modern frameworks. Proficient in Java, JavaScript, and Python, with excellent problem solving, teamwork, and communication skills.

WORK EXPERIENCE

Freelancer

Jun 2023 - July 2023

Web Developer

- Built a fully responsive Modern E-commerce application with modern design, animations, and all advanced cart functionalities.
- Implemented the payment functionality using complete integration with Paytm.

PROJECTS

Interactive-Portfolio

A personal portfolio website showcasing my skills, projects, and experience.
Built with ReactJS, Tailwind CSS, and JavaScript for a modern responsive design.
Includes sections for About Me, Skills, Projects, and Contact.

ANON E-Commerce

E-Commerce Web Application – Built a full-stack shopping platform with user authentication, product catalog, cart & wishlist, and order checkout. Developed with ReactJS, Tailwind CSS, Node.js, Express.js, and MongoDB, deployed on Netlify

Musify

A music streaming web application inspired by Spotify, built to replicate its core features and UI.
Developed a responsive UI with ReactJS / Tailwind CSS for smooth navigation and modern design.
Integrated music player controls (play, pause, skip, volume control).
Implemented dynamic playlists and song browsing using API / mock data.
Focused on clean code, reusability, and scalable architecture.

EDUCATION

2022 - Present	B.Tech in Computer Science and Engineering at DIT University	(CGPA:6.5)
